

VETERINARY ORTHOPAEDICS

SURGICAL IMPLANT & INSTRUMENT

CATALOGUE

Veterinary Orthopaedics

Veterinary Orthopaedics

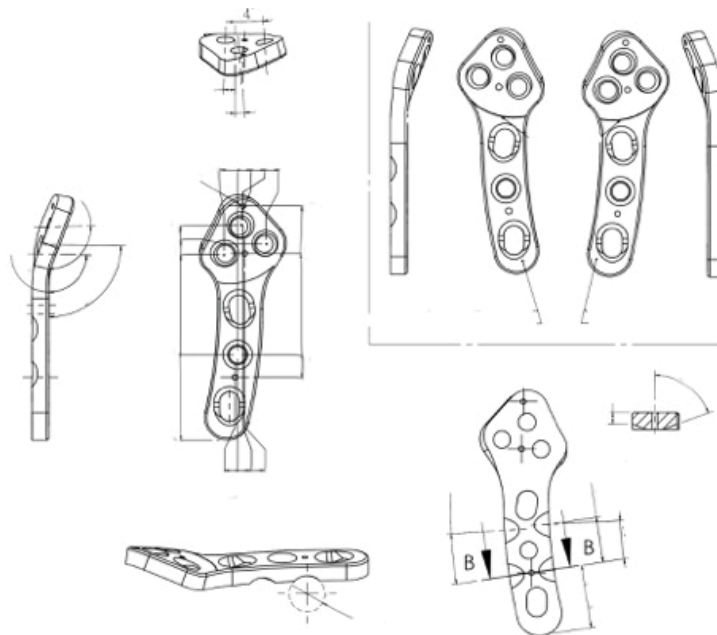

Quality- Highly engineered implants designed on CAD, precision milled and CE certified for human use within the EU.

Support- With over 20 years of orthopaedic referral experience we will help with any questions you may have with your surgical cases.

Proven track record- Supplying some of the top referral clinics both in the UK and overseas.

Innovation- We design our implants and develop new technologies to improve and expand the surgical techniques available.

Customer service- Our customers make our business and so we look after them like they are family.

If you require a product not listed in the catalogue, please feel free to contact us and we will do our utmost to source this for you.

Testimonials

Richard Coe MA, VetMB, CertSAS, DipECVS, MRCVS

"We switched to Veterinary Orthopaedics for our orthopaedic implant and instrument ordering about 6 months ago and since then have had fantastic prompt and reliable service from them. The implants are of excellent quality – we use the Apollo TPLO plates and have found them well designed and easy to use with a number of helpful design features. Pricing is very competitive which helps us keep the pricing of our TPLO surgeries competitive."

Jonathon Bell BVM&S, Cert SAS, DipECVS, MRCVS

"I have used the soft tissue instruments for 4 years and found them to be very high quality."

Jefferson Nunley DVM, DACVS-SA

"I am a mobile Veterinary Surgeon located in Nashville, TN. I was looking for a distributor that could supply me with superior products when I was introduced to Veterinary Orthopaedics at the first of the year. Dr. Frost and his staff were exceptional from the very beginning. We are extremely pleased with our choice to go with this company. I would also like to say I'm very impressed with their caudally directed TPLO plates too. I can say with certainty we won't be using anything else."

Dr. Viktor Paluš Dipl.ECVN, EBVS, European Specialist in Veterinary Neurology

"What I like the most is friendly and reliable communication with me. I have no worries to ask for a professional advice to what I really need for my work."

Mike Guilliard MA, VetMB, CertSAO, FRCVS

"Excellent service and even better prices."

Jerry O'Riordan MVB, CertSAS, Dipl.ECVS, MRCVS

"Over the 5 years I've been using their products I've found their customer service to be fantastic. It is very helpful to have a knowledgeable surgeon to discuss cases with when needed. The products are well-priced and very high quality."

Martin Owen BSc, BVSc, PhD, DSAS(O) Dip. ECVS, MRCVS

"Veterinary Orthopaedics is giving us an unrivalled service for supply of implants, power tools, surgical instruments and for value. The implant quality is excellent, giving a great user experience. Veterinary Orthopaedics continue to be responsive to implant design ideas and VO's steady introduction of their new innovative implant designs has found each welcomely received. We are experiencing customer care, products and even the development, design and manufacture of bespoke implants, all at the very highest level."

Jean-Benoit Lefebvre MVDr, ECVS, EBVS

"There is excellent and very prompt communication with a dedicated personalised service and unique ability to match more specific requests. The quality of the implant is high and compares to the veterinary standard in the UK. I am very satisfied with the quality control for each and every implant delivered. Unlike many other implant suppliers who are just doing the sale, Veterinary Orthopaedics is clearly more in touch with the implant requirements and the reality of orthopaedic referral practice. A second opinion from an experienced veterinary surgeon is sometimes much appreciated."

Colin Whiting BVSc CertSAS MRCVS RCVS

"Alasdair and his team have been fantastic as we've kitted up to launch our travelling surgical team business. Kit, advice, expertise, insight that's helped steer and service our choices across the whole business. A friendly and swiftly available service, excellent implant and equipment range, tailored precisely to our needs. They already feel a big part of our team."

VETERINARY IMPLANTS

Surgical implants in both stainless steel and titanium are CE and ISO certified for human use. Our locking screws are compatible with most of the leading plates on the market. We focus on tight interaction at the screwdriver/ screw head interface and on producing sharp cutting flutes for ease of use in self tapping screws

Stainless Steel Locking Screws and Plates

Self tapping stainless steel locking screws compatible with Synthes plates.

1.5mm Self Tapping Stainless Steel Locking Screws (Hex)

Length (mm)	Code	Price (ex VAT)
6	L1506	£13.20

Stainless Steel Cortical Screws and Plates

Stainless steel screws are made from 316L stainless steel and are FDA approved for use in humans in the USA. Used alongside dynamic compression plates, TPLO plates and other orthopaedic plates.

Dynamic compression plates (DCP) are still the cornerstone of veterinary orthopaedics. T plates and supracondylar plates are useful for awkward fractures.

1.0mm Self Tapping Stainless Steel Cortical Screws (Cross Head)

Pins, K wires and Cerclage wire

Pins and wire still remain very useful in veterinary orthopaedics despite more modern technical orthopaedic implants.

Our orthopaedic pins and cerclage wire are available in a large range of sizes tailored to veterinary use.

Cerclage Wire

Gauge	Code	Price (ex VAT)
16	VO-CWG16	£16.50
18	VO-CWG18	£16.50
20	VO-CWG20	£16.50
22	VO-CWG22	£16.50

Thickness (mm)	Code	Price (ex VAT)
0.7	VO-CWM07	£16.50
0.8	VO-CWM08	£16.50
0.9	VO-CWM09	£16.50
1.0	VO-CWM10	£16.50
1.2	VO-CWM12	£16.50
1.5	VO-CWG16	£16.50

Arthrodesis Wire (Trochar Tipped)

Name	Length (mm)	Length (mm)	Price (ex VAT)
0.7mm Arthrodesis wire (trochar tipped)	125	K07	£2.20
0.8mm Arthrodesis wire (trochar tipped)	125	K08	£2.20
0.9mm Arthrodesis wire (trochar tipped)	125	K09	£2.20
1.0mm Arthrodesis wire (trochar tipped)	125	K10	£2.20
1.1mm Arthrodesis wire (trochar tipped)	125	K11	£2.20
1.2mm Arthrodesis wire (trochar tipped)	125	K12	£2.20
